# MY ISLANDS OF PERSONALITY

Directions: You will create 3 “Islands of Personality”. Consider that your personality is most shaped by your family beliefs and the way you are raised, according to personality psychologists. It is also shaped by your culture, gender, strengths, weaknesses, friends, surroundings, and hobbies.

*For example, if you love reading, you may have a “Bookworm Island”. This “island” could have formed when your family read to you at a young age and grown into a larger “island” at school.*

**Name each island. Draw what each island looks like. Explain why that island is a major part of your personality.**

**Island #1:** \_\_\_\_\_  
Why is this island an important part of your personality?  
How did it form and grow?
